Experience

MERN Stack Developer Intern

Unblock Technolabs *Feb 2026 – March 2026, Surat, India*

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated REST APIs while contributing to debugging, performance optimization, and deployment processes.

Projects

MovieIa – Movie Platform — MERN Stack, Telegram Node API

- Developed a movie platform with Telegram integration for seamless content discovery and access.
- Built scalable backend APIs and implemented SEO optimizations to improve performance and visibility.

Helpyzo – Home Service Platform — MERN Stack, Framer Motion

- Built a service marketplace connecting customers with service providers through an intuitive booking system.
- Designed a responsive user interface with smooth animations to enhance user experience and engagement.

ShreeXpress Courier – Courier Management System — MERN Stack, DaisyUI

- Developed a role-based courier management system with parcel tracking and administrative controls.
- Implemented scalable backend architecture for efficient shipment, user, and branch management.

Cartivoshop - Ecommerce Platform — PERN Stack, TailwindCSS

- Developed a full-stack e-commerce platform featuring authentication, cart management, order processing, and payments.
- Built an admin dashboard and responsive user interface with scalable REST API architecture.

iFlexPDF – Online PDF Tools — React.js, PDF packages

- Developed a browser-based PDF toolkit supporting merge, split, compress, convert, lock, and unlock operations.
- Designed a responsive and user-friendly interface focused on speed, accessibility, and ease of use.

Restaurant POS System — PERN Stack

- Built a restaurant POS system with order management, billing, table tracking, and sales reporting features.
